The start of the Schnee (Snow Yorkies)

Mr Biewer named all the puppies that were tri colored with the prefix Schnee meaning Snow except for Grand Pom pon.

From my research here's where it becomes more difficult to follow the pedigrees of the dogs that are ACH registered, Some of the ACH numbers are not available due to the split up of the club. The Tri colors that were born from 2 traditional color Yorkies with no tri color in the pedigree were registered VDH/KFT. If one or both parents were Tri-color or had tri in the pedigree then they were registered ACH. Some have the Fried Number that is possible was his own records.
